**CKRW Ski Report** (Ski reports provided on Thursday morning)

## **Good morning Jenna and cross country skiers...**

Here is the weekly ski report for the Whitehorse Cross Country Ski Club.

With the new snow our groomers have been busy! Here are the trails that we groomed this morning: Copper to best chance, SunDog, Selwyn's Loop, Upper Valley, Coyote, Jeff Link, Wolf, Logan Burn, Olympic and the Stadium were all groomed recently and are in excellent condition for skiing. Keep checking our website for updates as groomers are still out working on the trails!

The Air North Challenge begins Feb 8 and runs through March 8. Sign up for this fun event as a great way to explore trails you may not otherwise ski. All participants who find all the controls have a chance to win Air North flights. Details can be found on our website and at the Ski Club.

Join us this Sunday from 12-3 at Harvey's Hut to our Easy like Sunday event. Bring your family and friends and enjoy hot chocolate, treats and a warm fire.

Visit the ski club website at [xcskiwhitehorse.ca](http://xcskiwhitehorse.ca) for more information on all the trail grooming updates, wax conditions as well as updates on all our other upcoming events.

A reminder day passes or season's passes are required to use the trails and are available at the ski club. Day passes can also be purchased online.

Thanks to Icycle Sport and CKRW for providing the weekly ski report.

**Happy Skiing!**
